

## Salad Kwickload

The Kwickload® Salad Pusher System is the latest innovation in our pusher system collection. Its sleek and visually minimal design is ideal for pushing produce products. Our Kwickload® Salad Pusher System allows for quick and easy product restocking and rotation. The efficient system pulls out and locks paddle back for easy, one-handed loading. A variety of fronts and mounting options are available, making it ideal for all merchandising needs.

- Revolutionary slide-out mechanism allows for no-hassle, single-handed reload
- Paddle remains locked in place for easy product loading
- Multiple mounting options including on-shelf and crossbar systems
- Heavy duty construction ensures durability and reliability even in the cold
